SKILLS

Laravel & PHP
Database Optimization
API Development
Front End Integration
Git & Composer

EDUCATION

THE SUPERIOR UNIVERSITY
2015-2019
BS in Computer Sciences

PROFILE

Detail-oriented and solution-driven **Laravel/CodeIgniter Developer** with over 3 years of experience in building scalable web applications. Proficient in MVC architecture, RESTful API development, MySQL database design, and frontend integration using Blade, Bootstrap, and jQuery. Adept at writing clean, maintainable code and collaborating in cross-functional teams. Passionate about optimizing performance and delivering robust, secure, and user-friendly web solutions.

EXPERIENCE

Software Engineer- Riphah International University
2025-Cont.

- Designing, developing, and maintaining in-house web portals using Laravel and PHP, following MVC architecture and clean coding practices.
- Managing and optimizing MySQL databases to ensure data accuracy, performance, and scalability.
- Building and consuming RESTful APIs to enable integration with third-party systems and internal services.
- Responsible for the end-to-end lifecycle of university software portals, ensuring reliability and performance for faculty, staff, and students.

Associate Software Engineer- Devbunch Pvt.Ltd
2022-2025

- Developed and maintained web applications using Laravel and PHP, adhering to MVC architecture and industry best practices.
- Designed and optimized MySQL databases, ensuring data integrity and performance.
- Built and integrated RESTful APIs for seamless third-party service communication.
- Collaborated with frontend teams using Blade templating, Bootstrap, and jQuery for dynamic UI components.
- Utilized Git for version control and Composer for efficient package management and dependency handling.
